Dr.WI

5 Arylcycloalkyl-substituted alcanoic acid derivatives, processes for their preparation
 and their use as pharmaceuticals

The invention relates to arylcycloalkyl-substituted alcanoic acid derivatives and to their physiologically acceptable salts and physiologically functional derivatives.

10

What is described are compounds of the formula I,

I

- 15 in which the radicals are as defined, and their physiologically acceptable salts and processes for their preparation. The compounds are suitable, for example, for the treatment and/or prevention of disorders of the fatty acid metabolism and glucose utilization disorders and also disorders in which insulin resistance is involved.
